

# Recycling Information

Since we are using a new company to do our paper/plastic/aluminum/cardboard recycling, you no longer need to bring these items to the big green dumpsters outside-recycle them on your curbside. (our school has had great parent participation in this program in the years past, but we need all the room that we can get in our dumpsters for our school papers, etc.) [We fill both dumpsters each week!]

**BUT, what we really need for you to do, is bring in the following:**

**PLEASE BRING TO FRONT OFFICE:**

- 1)all types of printer cartridges, ink jet(in a bag or baggie) and laser(in the box from the replacement)**
- 2)cell phones**
- 3)all sizes of small batteries-9V, AA, AAA, C, D, button batteries(hearing aid, small devices), and cell phone batteries. they will be taken to the recycling center in Ft. Worth.**
